

Ranger Offset 16

Tailgater Offset Smoker w/ Removable Stand

Our **Ranger 16 Offset Smoker** is designed for the serious griller on the move. With the Ranger Grill Offset Smoker, you can quickly convert from regular backyard usage into the ultimate tailgating or camping cook station. With a horizontal cooking chamber and a firebox on the side, it is designed to cook with indirect heat for "low and slow" barbecue. The automotive bracket allows you to mount your Ranger Grill to a standard receiver / Reese style hitch commonly found on trucks, SUV's and RV's. It features rugged quarter-inch steel construction and high-quality Texan craftsmanship. In practical terms, it retains heat like a champ and gives grill masters precise control over cooking temps through its dual-damper air flow system.
